## SPECIFICATIONS

### The storage satchel that's soft, slim and smart.

Introducing the HB-3 that's available in two sizes.

The HB-3M is the larger size and M represents (Max). The HB-3R is a smaller compact version and R represents (Regular).

This briefcase-style portable storage helps your work flow smoothly if you're a mobile worker who needs internal on-site storage that's also suitable for external use.

It's the perfect on-desk storage for nomadic workers who work at a desk some of the time but move on to meetings or other sites. Its also a nifty locker satchel too, with a side-pull handle to get it out easily and quickly.

You'll achieve an easy desk set-up every time you use the HB-3. It helps you take what you need from locker to hot-desk to external meeting – without interrupting your workflow. The HB-3R holds laptops securely in place and fits effortlessly into the HB-Go for added flexibility when mobile. Choose this clean, tidy, organised and personalised Hotbox when you need to take more stuff with you on the move.

This classic-type briefcase is made from lightweight material, with optional covers in Camira Blazer or recycled fabrics like Camira Rivet. It sports a purple lining with pockets for cables, mouse, pencils and accessories. (We chose this colour as it's unisex and has positive vibes of creativity, nobility and wisdom).
