DESIGN BY HEE WELLING & HAY

HAY

AAC 155

Part of a long-term collaboration between HAY and designer Hee Welling, the AAC 155 combines the qualities of a lounge chair with the best of an office chair, fusing optimal comfort and modern aesthetics to create a refined and functional task chair. Designed to meet the growing needs of flexible seating in the workplace, the higher backrest and generous seat ensure all-day comfort, while the five-caster base, tilting mechanism and gas lift elevate the functionality. Both the base and shell are available in different options, providing a multitude of design combinations that give this chair versatility in a wide range of corporate, public and private contexts.

Hee Welling

HEE WELLING

Hee Welling is a Danish furniture designer who founded his own studio in Copenhagen in 2003. Welling has received a number of design awards, including the Bo Bedre Award (Denmark), Good Design Award (USA) and has been nominated as the Danish designer of the year in both 2013 and 2014.

Welling is the son of a cabinetmaker, and his fascination with production techniques, materials and machinery was fired as a child. He went on to study at The University of Art and Design in Helsinki, and received his master's degree in furniture design from The Royal Danish Academy of Fine Arts (where he is also now a design tutor). His design ethos is centred around the idea of creating technically accomplished products that can reach a wide audience. His work is characterised by a great sense of proportion and quietly elegant looks. For HAY, Welling has designed the About A Collection and the Hee Collection.

AAC 155 SOFT DUO

PRODUCT FACT SHEET

AAC 155 SOFT DUO

DESIGN BY HEE WELLING & HAY, 2021

The AAC 155 Soft Duo counterbalances its soft quilted shell and contrasting materials with the high functionality and modern expression of the task chair's five-legged castor base. Retaining the same high backrest and generous seat that characterises the series, the base is designed with a tilting mechanism and a gas lift that can adjust the seat height. The base is available in polished or powder-coated aluminium, and the quilted shell is offered with two different textiles or leathers to create a unique look that works equally well in corporate, public, or private contexts.

HIGHLIGHTS

- Part of a multi-functional family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman and a sofa.
- Soft quilted upholstery in selected fabric and leather combinations on front and back.
- Variety of textiles and base finishes.
- The 5-legged base is equipped with a semi-automatic gas lift and a tilt mechanism.
- Adjustable seat height varies from 44 to 56 cm.
- Tilt range 10° backwards and 4° forwards.
