

TWO-COLOUR

DESIGN BY MULLER VAN SEVEREN

HAY

TWO-COLOUR

Inspired by Muller Van Severen's love of materials and the different ways they can be showcased to highlight their natural beauty, the designer duo describe their Two-Colour Table series as a marriage of two materials used at their best. Inspired by the contrasts and similarities in the materials used – the Two-Colour Table features robust steel tube legs and a tabletop crafted in organic coloured Valchromat. The table's uniform silhouette and contrasting solid colour components reflect their preference to work with integrally coloured objects. Like much of Muller Van Severen's work, the Two-Colour Table achieves an elegant minimalism without seeming ordinary, using different shapes, sizes and colour combinations to offer a distinct and original expression.

Muller Van Severen was founded in 2011 by Belgian artist duo Fien Muller and Hannes Van Severen. The couple has always been on an inspired quest for sculpturally interesting furniture objects, and their work sits somewhere between design and art, drawing on their passion for architecture and materials. They have won countless awards and collaborated with prestigious international museums and galleries.

Fien Muller and Hannes Van Severen in their studio in Evergem / Belgium.

Muller Van Severen's appreciation of materials is the starting point for many of their designs.

The colours for Two-Colour Table are carefully selected to ensure they penetrate the very core of the object.

Two-Colour is available in different shapes, sizes and colour combinations, all offering a distinct personality fulfilling a variety of aesthetic needs and styles.

The Two-Colour is inspired by the contrasts and similarities in the materials used – featuring robust steel tube legs and a tabletop crafted in organic coloured Valchromat.

Valchromat is made from wood fibres that are coloured individually with organic dyes to create core-through colour with a smooth, water-resistant surface.
