Etch Web Pendant Brass

New addition to the much-loved Etch family. A space filling shade made from photo-etched sheets of pure brass, designed to cast atmospheric angular shadows when lit. Another experiment in our long running exploration of mathematics and geometry, an irregular pentagon shape is repeated 60 times across the body to create a total sphere. Etch Web in polished brass is astonishingly beautiful, with an ethereal visual attitude. A lamp is suspended within the centre to make it the ultimate shadow play pendant. Designed to add warmth and sophistication to the hallway, the hotel lobby or the dining room. Also available in stainless steel.
